

Title: WASH Education Internship
Reports to: Program Coordinator (Learning for Humanity)
Location: Remote/ Home Office
Type: Temporary

Overview:

Medicines for Humanity (MFH) is a 501(c)(3) organization founded in 1997 with the mission to save the lives of vulnerable children and mothers. We work in areas of high child mortality. We collaborate with and empower committed in-country partners to strengthen maternal and child health (MCH) in the communities we serve. MFH builds the capacity of in-country healthcare partners (typically congregations of Catholic sisters) to initiate or expand evidence-based interventions that prevent child deaths and improve child health.

Learning for Humanity (L4H) is an online learning platform, created by Medicines for Humanity, for Catholic Sisters. Our commitment is to support the Sisters' efforts to save the lives of children and their mothers in the most vulnerable communities on the planet. In many places, Sisters are the communities' only source of essential health services. They are champions for maternal and child health care, and their devotion and commitment to providing life-saving services do not waver.

To effectively reduce child and maternal mortality, Sisters need access to further develop critical skills, update their knowledge and data, and continue their education. Medicines for Humanity (MFH) created Learning for Humanity as a social enterprise to address the need for training Sisters in remote communities worldwide. The L4H curriculum focuses on training through participatory learning; building proficiency, competent, and knowledgeable abilities; practical application of skills, and mentoring for various topics. Content is interactive and synergistic, fused with live sessions, webinars, videos, animations, and activities. Courses, which we call Paths, encourage collaboration and teamwork with other learners through discussion boards, chat rooms, and capstone projects.

Scope of Work:

This Scope of Work must be completed between January and May 2023. It is anticipated to require 10-15 hours of work weekly. The objectives of SOW include:

- **Objective 1:** Technical review of the WASH curriculum comprised of six modules, each 15-25 pages. The technical review will consist of technical alignment with best practices in WASH and proofreading for language and grammar.
- **Objective 2:** Digitizing the WASH curriculum into six online courses. The path content and activities must align with the L4H style, format, and approach. The digitization of

the courses will be a compilation of the reviewed curriculum and graphics created by the L4H team.

- **Objective 3:** Monitoring student discussion board posts and answering questions once the path goes live.
- **Objective 4:** Collecting student pre-test and post-test data.

Qualifications:

- Current student or recent graduate with a Masters in Public Health, preferred experience or emphasis in WASH
- Excellent writing skills.
- Experience in developing training material for learners with limited capacity and knowledge.
- Ability to research potential sources for training material, synthesize and reformat to fit the curriculum style of L4H.
- Interest in developing/designing virtual interactive activities for learners.
- High-speed internet access is required, along with the ability to use Skype, Zoom, GoToMeeting, and other virtual meeting software.
- Can work independently and virtually.
- Available to meet as required despite any time zone differences.
- Requires a person who is organized, with attention to detail, and dependable.

Timeline:

Objective	Due Date
<p>Objective 1: Technical review of the WASH curriculum comprised of six modules, each 15-25 pages. The technical review will consist of technical alignment with best practices in WASH and proofreading for language and grammar.</p>	<p>February 28, 2023</p>
<p>Objective 2: Digitizing the WASH curriculum into six online courses. The path content and activities must align with the L4H style, format, and approach. The digitization of the courses will be a compilation of the reviewed curriculum and graphics created by the L4H team.</p>	<p>April 1, 2023</p>

Objective 3: Monitoring the student virtual discussion board posts on the online platform and answering questions once the path goes live.	May 15, 2023
Objective 4: Collecting student pre-test and post-test data.	May 15, 2023

Contact:

Interested candidates should email the following to Govinda Bilges at gbilges@medicinesforhumanity.org by December 31, 2022, to be considered for this position:

- Resume or CV
- Writing sample, preferably a training curriculum or report that has been written, and edited only by you.
- Two references, including one past employer with names, emails, and phone numbers.

Potential candidates that are determined to meet the qualifications will be contacted.
